

FRED.OFFICE MANAGEMENT SOFTWARE

NEW VERSION

FASTER, SMARTER, EASIER RETAILING

Managing your retail business just got easier with the latest version of Fred Office, new management software designed to meet your increasing retail demands.

- With substantial innovations in purchasing and ordering, pricing, and data management
- Fred Office strengthens your business and retail capabilities and enables better decision-making and buying power

Fred Office brings together your POS, dispense, appointments, and other systems into one central tool, making it faster and easier to maintain an accurate snapshot of what your business is doing and manage your business.

Everything from your stock levels and ordering, pricing, promotional items, through to dispensary and patient information, including management tasks such as running reports and managing stock, can be viewed and managed through the one easy-to-use tool.
